PROFILE

Frontend Developer and Computer Science graduate based in Rawalpindi/Islamabad, Pakistan, with hands-on experience building responsive & modern web applications. Currently advancing through the full MERN stack with a long-term goal of growing into specialized engineering roles. Brings additional background in commodity trading and Entrepreneurship, offering a unique perspective for fintech and proptech projects.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, Tailwind, React
Languages	JavaScript(ES6+), Typescript
Tools & Methods	Git, GitHub, Figma, Agile
Trading	Technical Analysis, Risk Management, Trading Psychology, Global Markets

PROJECTS

Personal Portfolio Website *2026*

Designed and developed a fully responsive personal portfolio website from scratch using HTML, CSS, and JavaScript. Integrated a Google Gemini 2.5 Flash AI Chabot powered by a custom system prompt to answer recruiter questions about my background and skills. Implemented API security via Google Cloud Console HTTP referrer restrictions and client-side rate limiting. Focused on clean UI, user-friendly experience, and production-ready code quality.
